CODMAN LUMBAR EXTERNAL DRAINAGE KIT II

- 80cm Catheter with Guidewire
- Unique Drainage Hole Pattern
- Touhey Needle

Codman
The CODMAN Lumbar External Drainage Catheter with Touhy needle is indicated for temporary access to the Lumbar Subarachnoid region as a means of draining cerebral spinal fluid (C.S.F.) to reduce increased intracranial volume and pressure.

**Features & Benefits**

**80cm Catheter with Guidewire**
- 80cm catheter provides ease of use and maneuverability in tight spaces
- Precoiled guidewire for convenience

**Unique Drainage Hole Patterns**
- Large diameter of holes minimizes chance of occlusion

**Touhey Needle**
- For smooth catheter guidance in subarachnoid space
